Professional Summary

Passionate Frontend Developer with hands-on experience at Vizualytic Data Solutions (Bangalore), building scalable and responsive web applications. Proficient in React.js, Next.js, JavaScript, CSS3, and RESTful API integration, with demonstrated impact on live client-facing projects including Aditi Consulting, Vacuum Sewage System, and Vizualytic company site. Adept at implementing RBAC, CRUD modules, and business logic to deliver user-centric solutions. Skilled with GitHub, Postman, Chrome DevTools, and equipped with a strong backend foundation in Node.js, Express.js, MySQL, MongoDB, and Docker. Known as a quick learner, effective communicator, and collaborative team player, committed to building modern and high-performance UI/UX solutions.

Professional Experience

Frontend Developer

Vizualytic Data Solutions | Bangalore, Karnataka

31 October 2025 – Present

- Developed modern, responsive UIs using React.js, Next.js, HTML5, and CSS3, ensuring accessibility, cross-browser compatibility, and seamless user experience.
- Integrated RESTful APIs and third-party services (tested via Postman) to deliver secure, real-time features and dynamic data-driven applications.
- Implemented RBAC modules and CRUD operations for SaaS platforms, streamlining workflows and enhancing product usability.
- Collaborated with backend teams on API design and database interactions (Node.js, Express.js, MongoDB) to deliver scalable end-to-end solutions.
- Optimized frontend performance using Chrome DevTools and best practices, boosting SEO, load speed, and user engagement while maintaining a clean GitHub-managed codebase.

Projects

Vizualytic Data Solutions - Corporate Website

- Developed a modern IT services website using Next.js dynamic components with a smooth and responsive UX.
- Focused on SEO-friendly architecture and optimized loading performance for better reach and visibility.
- Implemented Tailwind CSS & Chart.js for modern UI styling and data visualizations.
- Delivered an engaging corporate presence with cross-device compatibility and scalable, maintainable codebase.

CalcSphere - Consulting Platform

- Built a consulting platform with RBAC-based user roles and secure CRUD operations, enabling efficient multi-role data handling.
- Developed Compsheet module using Chart.js for visual analytics & real-time reporting, reducing manual errors by 15%+.
- Integrated RESTful APIs with Axios, adding error handling & validation, and thoroughly tested via Postman for reliability.
- Optimized UI/UX and performance with modular React components, lazy loading, SEO best practices, and cross-browser responsive design.

Vaculator - Business Calculation Tool

- Created a web tool for sewage line and flow computations, ensuring accurate formula-driven results for clients.
- Designed reusable React components using Material-UI for a scalable, modern and responsive UI.
- Integrated REST APIs with Node.js backend, validated and tested with Postman for reliable data processing.
- Enhanced usability & performance with clean state management, responsive layouts, and optimized workflows.
